OK — same drum **L** — one sheds lint onto the other **C** — colours would run into each other **S** — wash on its own **P** — different programme, temperature, spin or options

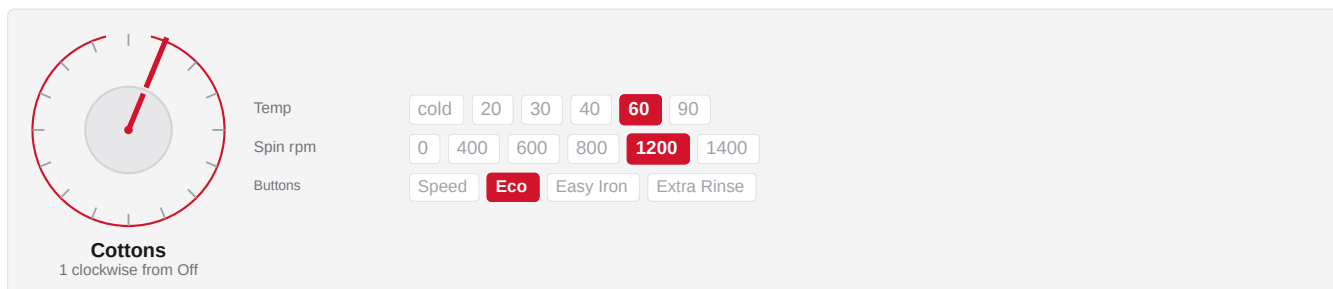

programme

The dials are drawn as they sit on the machine: twelve o'clock is Off, and the red pointer is where to turn it. Chips show every value the display steps through, filled in on the one you want. On the iron, the blue band is the zone where it makes steam.

1. White

~2:30

NO SOFTENER Cottons 60 °C · 1200 rpm

The dial is set to the 'Cottons' position, which is 1 clockwise from Off. The control panel shows the following settings:

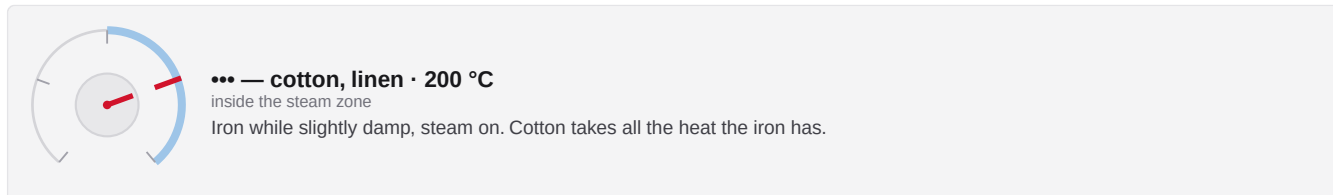

Temp	Spin rpm	Buttons
cold 20 30 40 60 90	0 400 600 800 1200 1400	Speed Eco Easy Iron Extra Rinse

Cottons
1 clockwise from Off

DETERGENT

Universal powder, full dose — the bleach in powder is what keeps whites from going grey

IRON

The ironing icon shows a red dot in the steam zone. The text indicates:

... — cotton, linen · 200 °C
inside the steam zone
Iron while slightly damp, steam on. Cotton takes all the heat the iron has.

DRYING

Tumble dry normal, or line dry in the sun — sunlight bleaches whites for free.

WASH TOGETHER WITH

White Socks

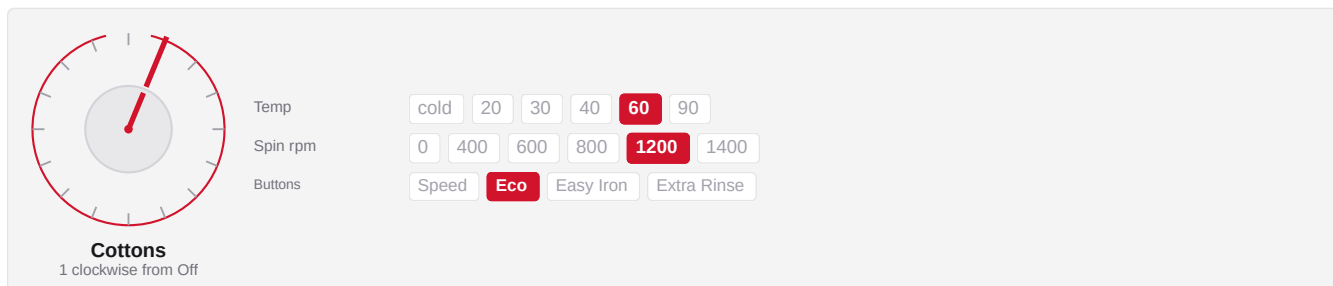

NOTES

Wash whites on their own. One stray coloured sock is all it takes.

2. White Socks

~2:30

NO SOFTENER Cottons 60 °C · 1200 rpm

The dial is set to the 'Cottons' position, which is 1 clockwise from Off. The control panel shows the following settings:

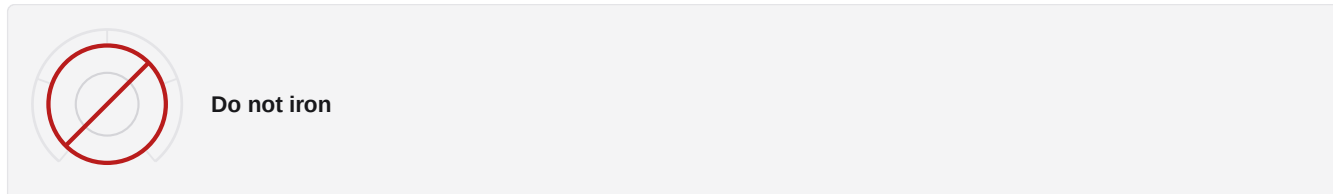

Temp	Spin rpm	Buttons
cold 20 30 40 60 90	0 400 600 800 1200 1400	Speed Eco Easy Iron Extra Rinse

Cottons
1 clockwise from Off

DETERGENT

Universal powder, full dose

IRON

The ironing icon shows a red circle with a diagonal line through it, indicating 'Do not iron'.

Do not iron

DRYING

Tumble dry normal.

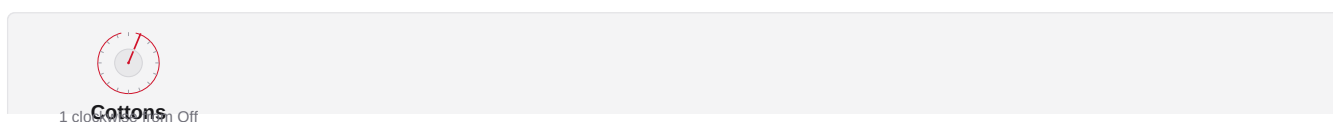

WASH TOGETHER WITH

White

3. White Towels

~2:30

NO SOFTENER Cottons 60 °C · 1400 rpm

The dial is set to the 'Cottons' position, which is 1 clockwise from Off. The control panel shows the following settings:

Temp	Spin rpm	Buttons
cold 20 30 40 60 90	0 400 600 800 1400 1600	Speed Eco Easy Iron Extra Rinse

Cottons
1 clockwise from Off

Temp	cold	20	30	40	60	90
Spin rpm	0	400	600	800	1200	1400
Buttons	Speed	Eco	Easy Iron	Extra Rinse		

DETERGENT

Universal powder, full dose. Go lighter rather than heavier: excess detergent stiffens terry.

IRON**Do not iron**

Ironing crushes the pile flat and the towel stops drying you.

DRYING

Tumble dry medium — the tumbling is what fluffs the pile back up.

WASH TOGETHER WITH

nothing else — wash alone

NOTES

Never fabric softener: it coats the loops in silicone and the towel stops absorbing. White vinegar in the softener drawer once a month softens instead.

4. Coloured

~2:15

SOFTENER OK Cottons 40 °C · 1200 rpm

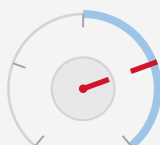

**Cottons**

1 clockwise from Off

Temp	cold	20	30	40	60	90
Spin rpm	0	400	600	800	1200	1400
Buttons	Speed	Eco	Easy Iron	Extra Rinse		

DETERGENT

Colour liquid detergent — no bleach, no optical brighteners

IRON**... — cotton, linen · 200 °C**

inside the steam zone

Steam, but turn prints and dark panels inside out first.

DRYING

Line dry inside out, or tumble on low.

WASH TOGETHER WITH

Coloured Socks

NOTES

Wash new or strongly dyed items separately for the first two or three washes.

5. Coloured Socks

~2:15

Easy Iron

Extra Rinse

DETERGENT
Colour liquid detergent. Go lighter rather than heavier: excess detergent stiffens terry.

IRON

Do not iron
Ironing crushes the pile flat and the towel stops drying you.

DRYING
Tumble dry medium — the tumbling is what fluffs the pile back up.

WASH TOGETHER WITH
nothing else — wash alone

NOTES
Never fabric softener — it kills absorbency. Run them at 60 °C every month or so if they start to smell.

7. Microfibre Towels

Eco

Easy Iron

Extra Rinse

DETERGENT
Liquid detergent, half dose. What doesn't rinse away stays in the split fibre and stops it picking anything up.

IRON

Do not iron
Polyester and polyamide start melting around 110 °C, well before the iron does anything useful.

DRYING
Air dry, or tumble on low. High heat fuses the split ends shut and the towel never absorbs again.

WASH TOGETHER WITH
nothing else — wash alone

NOTES
Never fabric softener — it fills the split fibres with silicone and the towel is finished. Wash with microfibre only: the same split ends that make it absorbent grab cotton lint and never let go.

Extra Rinse

Cottons

1 clockwise from Off

DETERGENT
Liquid detergent for dark/black — optical brighteners are what leave that grey haze

•• — wool, silk · 150 °C

inside the steam zone

Inside out, medium heat. Steam, don't press hard — shine on dark cotton doesn't come out.

DRYING
Line dry inside out, out of direct sun. Skip the dryer: heat fades black fastest.

WASH TOGETHER WITH
Black Socks, Denim

NOTES
Turn everything inside out. The extra rinse matters here — detergent residue dries as grey streaks on black.

9. Black Socks

DETERGENT
Liquid detergent for dark/black

IRON

... — cotton, linen · 200 °C
inside the steam zone
Inside out on cotton heat if you want them crisp. Steam.

DRYING
Hang by the waistband and air dry. A hot dryer shrinks them and destroys the elastane in stretch denim.

WASH TOGETHER WITH
Dark, Black Socks

NOTES
Inside out, zips and buttons closed. Wash them far less often than you think.

11. Raw Denim

~0:45

NO SOFTENER Delicates / Silk cold · 400 rpm

Delicates / Silk
6 clockwise from Off

Temp

Spin rpm

Buttons

cold 20 30 40 60 90

0 **400** 600 800 1200 1400

Speed Eco Easy Iron Extra Rinse

DETERGENT
A capful of pH-neutral or denim-specific detergent. No bleach, no enzymes.

IRON

Do not iron
Pressing sets creases in the wrong places and flattens the fades that took months to earn.

DRYING

Hang inside out indoors, away from sun and radiators. Never tumble.

WASH TOGETHER WITH
nothing else — wash alone

NOTES
Unwashed denim is meant to go months before its first wash. Gentler than the machine: a 45-minute cold soak in the bath, inside out, no agitation, no wringing — then roll in a towel to press the water out.

12. Merino Wool + Cashmere Blend~0:40

NO SOFTENER Wool 30 °C · 400 rpm

Wool
7 clockwise from Off

Temp

Spin rpm

Buttons

cold2030406090

040060080012001400

SpeedEcoEasy IronExtra Rinse

DETERGENT
Merino Wool: Wool detergent, half dose. No enzymes, no proteases, no bleach — they eat the fibre.
Cashmere Blend: Wool or cashmere detergent, half dose. No enzymes, no proteases, no bleach.

IRON

•• — wool, silk · 150 °C
inside the steam zone

Merino Wool: Only if you must: pressing cloth, no weight. Hanging it in a steamy bathroom drops the creases without touching it.

Cashmere Blend: Low heat through a pressing cloth. Better still, steam it on a hanger and let the creases drop out on their own.

DRYING
Merino Wool: Never tumble dry. Dry flat on a towel, away from radiators and sun — hung up it stretches and never comes back.
Cashmere Blend: Never tumble dry. Squeeze the water out, never wring, then dry flat on a towel away from any heat.

WASH TOGETHER WITH
each other

NOTES
Merino Wool: Turn inside out, wash with wool only, nothing with zips. Merino barely needs washing — air it overnight and wear it again.
Cashmere Blend: Inside out, and only ever with other wool. Cashmere pills where it rubs — that is the fibre behaving normally, not a fault; a cashmere comb takes it off. Check the blend first: a little nylon makes it tougher, silk makes it more delicate.

13. Synthetic Activewear~1:10

NO SOFTENER Sportswear 30 °C · 800 rpm

Sportswear
14 clockwise from Off

Temp

Spin rpm

Buttons

cold2030406090

040060080012001400

SpeedEcoEasy IronExtra Rinse

DETERGENT
A small dose of mild pH-neutral liquid detergent. Too much is what makes them smell.

IRON

Do not iron
Elastane starts degrading around 110 °C, and the technical finish goes with it.

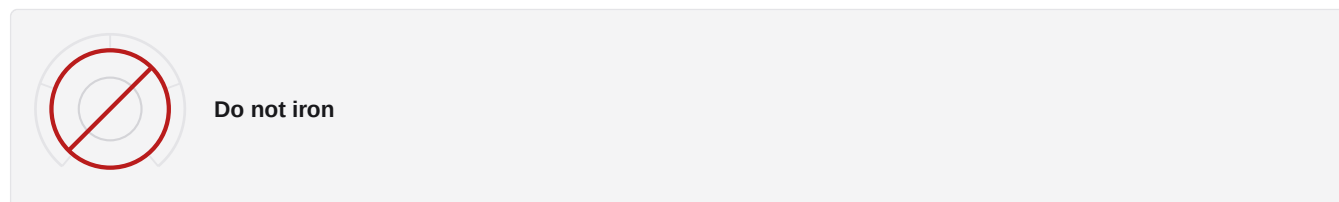

DRYING
Air dry on a hanger — dry within the hour. Tumble heat kills the stretch.

~1:20

The diagram illustrates a washing machine's control interface. On the left is a circular dial with tick marks every 10 units clockwise from Off. A red needle points to the 14 mark, which is labeled "Sportswear". Below the dial, the text "14 clockwise from Off" is displayed. To the right of the dial are three rows of controls:

- Temp:** A row of buttons labeled cold, 20, 30, 40, 60, and 90. The button "40" is highlighted in red.
- Spin rpm:** A row of buttons labeled 0, 400, 600, 800, 1200, and 1400. The button "1200" is highlighted in red.
- Buttons:** A row of buttons labeled Speed, Eco, Easy Iron, and Extra Rinse. The button "Extra Rinse" is highlighted in red.

IRON

NOTES
Give them a 60 °C cotton run every few weeks — 40 °C keeps them clean but doesn't reset the smell.

~0:40

Temp

Spin rpm

Buttons

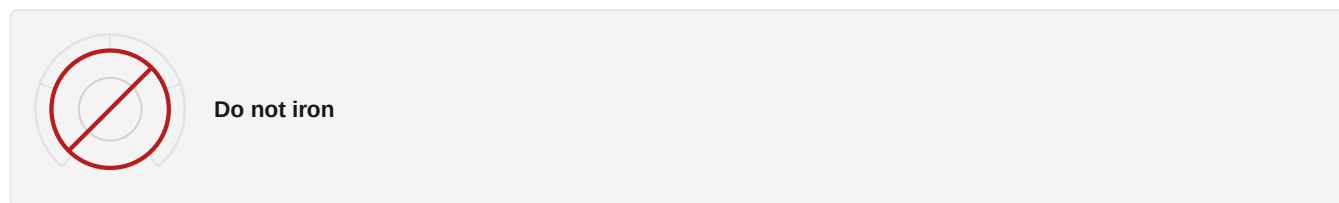

Wool
7 clockwise from Off

cold 20 30 40 60 90

Speed Eco Easy Iron Extra Rinse

IRON

NOTES

Pull the insoles and laces out first and wash those by hand. The shoes go in a mesh delicates bag or a pillowcase, on their own — a loose trainer batters the drum and everything in it.

16. Linen

~1:30

NO SOFTENER Easy Care 40 °C · 800 rpm

Easy Care
3 clockwise from Off

Temp

Spin rpm

Buttons

cold 20 30 **40** 60 90

0 400 600 **800** 1200 1400

Speed Eco **Easy Iron** Extra Rinse

DETERGENT
Mild liquid detergent, no bleach — bleach yellows linen and breaks the fibre down over time

IRON

MAX — linen · 230 °C
inside the steam zone
While still damp, hottest setting, steam first.

DRYING
Line dry, or tumble low and pull out a little damp — bone dry locks creases in.

WASH TOGETHER WITH
nothing else — wash alone

NOTES
New linen sheds a little dye/lint for the first few washes — wash alone until it rinses clear, then fine with other 40 °C loads.
